

## HHHarvester - Module Configuration and Specification

### Data-sheet

Description: Modular flower stripper as front-attachment to a traktor capable of loadlift 1 to and 250l/m hydraulic

Year of build	2020	
Series	Mk 01	
Base module	1,00 pcs	
Extension Modules	0,00 pcs	
Width per mdule	700,00 mm	
Width overall	700,00 mm	
Height	700,00 mm	
Length	2.000,00 mm	
Weight per module	250,00 kg	
Weight overall	250,00 kg	
Oil consumption per module	33,00 l/m	at 60% throttle
Oil consumption overall	33,00 l/m	
Hydraulic connectors	Information needed to fit to the tractor	
Hydraulic tubes Hansaflex	Connection to tractor defined by required length	
Hydraulic splitters 2 channels	1,00 pcs	
Customized Aluminum Frame		
Front Hydraulic Adapter	Kat 1	
Front Loader Adapter	Euro	
Chains	12B1 Stainless Steel	
Sickle bar hydraulic 1.400mm	1,00 pcs	
Flowers conveyor	5,00 m <sup>3</sup> /min	
3 segements, collector behind modules	700,00 mm	
lift to trailer	2.000,00 mm	
Rollers Diam. 250mm rubberized, vulcanized	1.000,00 mm	
5mm layer, smooth skin, frontside cone-shaped		
estimated harvesting speed	1,00 m/s	
harvesting capactiy	0,25 ha/hr	
flowers	0,50 to/hr
